Assistant Commissioner for Patents  
Washington, DC 20231RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS UNDER 35 U.S.C. 371

Sir:

The Notification of Missing requirements under 35 U.S.C. 371 (a copy of which is enclosed) has a shortened statutory time set to expire on June 8, 2002.

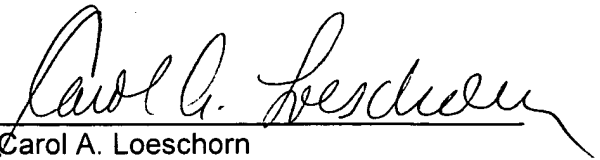

In response, applicants submit that an original declaration was filed with the United States designated Office on December 20, 2001. A copy of the Transmittal Letter and a copy of the fully executed Declaration and Power of Attorney are enclosed herewith. Also enclosed is the stamped postcard showing that the signed declaration was received at the PCT/PTO on December 20, 2001.

The requirement for a copy of the "Sequence Listing" in computer readable form is believed to be in error. The instant application does not contain a nucleotide and/or amino acid sequence as defined in 37 CFR 1.821. Accordingly, applicants are not submitting one. If the requirement still stands, applicants respectfully request that the particular amino acid and/or nucleotide sequence for which the "Sequence Listing" is required be specifically pointed out.

In view of the foregoing, it is believed that no fee is due. However, the Commissioner is hereby authorized to charge any fees which may be required to Deposit Account No. 19-0134 in the name of Novartis Corporation.

Respectfully submitted,

Novartis Corporation
